

Diagram of SPS-5 v8 Paging System with Alert Utility Software and Nurse Call or Other Inputs

See the Short Haul Modem Kit Diagram for more Details.
We do Not supply the Cat-5 Cable.

Brief Descriptions:

Nurse Call Output comes into the Computer "IN" com ports to AU.

Alert Utility Monitors all "Input" com ports and Routes all inputs out to the SPS-5 v8 Paging System.

The Short Haul Modems are used to Extend the Distance of RS-232 Connections between systems.

* Only If Needed

Legend:

AU = Alert Utility

NOTE:

Use ONLY a Standard "Desktop" Computer with Win XP, XP Pro or Vista Premium OS.

We Do **NOT** Support "Server Model" Computers or their OS.
