

MaxPage Lite Numeric Paging System

MaxPage is a complete, ready-to-use, numeric paging system which is easy to install and operate.

Easy to Install:

Incorporating a built in 4 Watt transmitter and antenna, MaxPage simply needs to be plugged into a power outlet and it's ready for operation. This compact, self contained unit can be plugged in almost anywhere. There is no need for special programming software or hardware either -the simple configuration can be done on-board by anyone.

Easy to Use:

Featuring a very familiar telephone style keypad, MaxPage was designed with simplicity in mind. Simply key in the pager number followed by the message number, then send - its that simple! The backlit display provides message confirmation and ensures the user keys in the correct information every time -even in poorly lit environments.

Within Range:

One of the greatest features of the MaxPage is its low cost. MaxPage was developed to cater to all businesses - especially those with a lean budget.
