## Motorola

### AlphaMate 250

AlphaMate® 250

- **80-Character Display**-The AlphaMate 250 uses a high-contrast Supertwist display for superior viewing at any angle. The 80-character, 2-line display shows more information at a glance.
- **250 User Pager Directory**- The pager directory can accommodate up to 250 users. Directory scroll and search functions are provided.
- **Canned Messages**- Up to 4 messages can be stored for quick message entry.
- **Group Call**- Up to 4 groups can be programmed into the AlphaMate 250 for one-step messaging.
- **Dual Password Protection**- Both master and user passwords are provided.
- **Multiple System Setups**- Up to 16 systems can be set up (including telephone number, alternate number, modem parameters, password, maximum message length, etc.).
- **Remote Programming**- Directories and system configurations can be downloaded from one AlphaMate 250 to another directly or over a phone line.
- **300 Baud Modem**- For easy, more simplified set-up and dependability.
- **Message Buffer**- Messages can be simultaneously transmitted while new messages are being entered (up to 16 messages can be queued).
- **Printer Interface**- Serial printer interface enables you to log all call information, including the person paged and message sent.
- **Call Progress Monitor**- AlphaMate 250 provides visual and audible call progress monitoring (busy, ring back, dial tone detection, etc.).
- **Paging System**- Works with the WaveWare SPS-5 v8 Paging System.
