

AlphaNET™ VERSION 3

AlphaNet is an easy-to-use text based messaging suite for Adaptive outdoor and indoor LED signs. AlphaNet works with all of our indoor sign models as well as our StreetSmart and RoadStar outdoor signs, giving you the ability to create and schedule messages to support and advertise your business on the street or in your store. With this easy-to-use, feature-rich software package, you'll attract more customers than ever before.

System Requirements

- Windows® 95/98/2000/ME/XP/Windows® NT Workstation and Vista
- 100 MB hard disk space
