

## WaveWare ClassPage Software

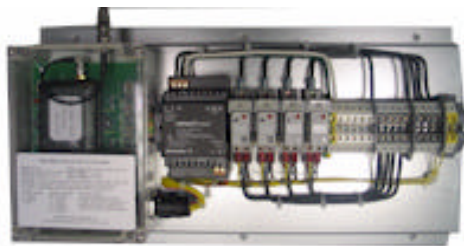

WaveWare ClassPage allows you to automatically monitor Class™ facility booking software for booked events, and output control messages for remote electrical circuit control.

Each receiver can support up to 4 electrical circuits.

### FEATURES

Features include:

- ▶ **Automatic Monitoring of Class Facility Bookings Database**
- ▶ **Individual Field Lighting Control**
- ▶ **Automatic Output of ON Signals in Advance of Booking Start Event**
- ▶ **Automatic Output of OFF Signals After Booking End Event**
- ▶ **Avoidance of OFF Signal Output Between Back-to-Back Bookings**
- ▶ **Compatible with Any Paging Service**
- ▶ **Designed for Use with WaveWare RCC-4 Remote Circuit Control Modules**
- ▶ **Uses SNPP Internet Paging Control Protocol for Interface to Paging Services**

RCC-4 Module

	Paging Receiver	Facility	Output	SubCode
SNPP	rcvr 4	Baseball 3 - Maple High School	2	101
SNPP	rcvr 1	Baseball 1 - Maple High School	3	102
SNPP	rcvr 1	Softball 1 - Elm Middle School	4	103
