

Electro-Matic Indoor LED Displays

Visions Play Software

Visions Play Proprietary Software gives you the ability to Add, Edit and Preview your Display Messages with its Easy-to-use Format. Visions Play Software allows you to Create, Manage and Display Thousands of Messages assuring your Announcements are noticed by your Audience.

Visions Play

Capabilities Include:

- Eight Standard Fonts
- Use Window Based Fonts
- 48 Different Modes of Showing Content in Addition to Scrolling Large Continuous Messages
- 7 Message Moving Speeds
- Pause Periods from 0 Seconds to 60 Minutes
- Display Time and or Date
- Schedule Messages by Specific Time, Day and Date Range
- Unique Counter Function lets you Count up or down to Specific Dates or Events

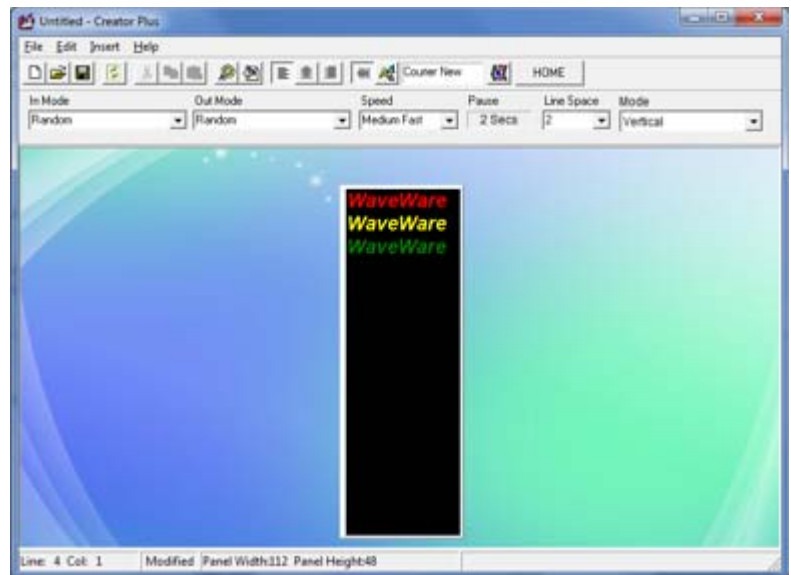

Creator Plus

Visions Play Software includes “Creator Plus” for the Creation of Messages.

You can Design your Messages with:

- Color
- Fonts
- Set Speeds
- Line Spaces
- Modes and more

Use the Simulator to Review your Messages for how they will be seen on the LED Display.
